

BE NICE

Read carefully this text and share your opinion with your classmates.

Respect others

Never tell people they can't do anything right, because firstly, it hurts their feelings, and secondly, your behaviour towards others determines their behaviour towards you.

You should always look for a person's good points. So, if a classmate makes a mistake, be kind: instead of saying something negative, help him or her do better.

People who think they are better than others don't have a lot of friends, because no one likes to feel inferior. If you don't value others, they might not value you. But if you appreciate others and treat them nicely, they will treat you nicely, too.

Treating yourself and others well will make you feel good. So remember: the first secret is to respect yourself, and the second, to respect others.

❖ In my opinion...

❖ I think...

Answer the questions.

What are the two main reasons why we should be nice to others?

Write three nice things you could say to your classmates to encourage them.
